AGREEMENT

The Islamic World Academy of Sciences, Amman Jordan (hereinafter referred to as IAS)

The Future University Khartoum, Sudan (hereinafter referred to as "FU")

WHEREAS IAS, established in 1986 as a think tank of the best scientific minds in the Islamic World to serve the 57 member countries of the Organization of the Islamic Cooperation (OIC), as well as OIC communities worldwide, leads the efforts of promotions quality science education at All level;

Whereas the IAS has developed very successful experience in organizing and implementing Scientific symposia, conferences and workshops;

Whereas FU Board of Trustees, in its last meeting in May 2012 recommended that The Future University strengthens its regional and international relations;

Whereas FU has become a hub for South-South cooperation in Science, Technology and Innovation in Africa within the framework agreement signees with ISTIC;

Whereas quality science education is the foundation on which all the development of the Islamic world must be based;

Therefore, the IAS and FU have decided to promote, in cooperation with other partners, Inquiry-based Science Education (IBSE) approach in OIC Member States.
The two Parties hereby agreed on the following:

**Article I**

Organize an international workshop on IBSE in cooperation with ISTIC, Ministries of Education in OIC countries. The Workshop will take place in April 2013.

**Article II**

The responsibility of IAS is the translation into Arabic language, printing and the provision of free copies of the book "Islamic discoveries" to be used as reference throughout the workshop.

**Article III**

FU, as the regional hub for ISTIC, in cooperation with Ministry of Education, shall shoulder the responsibility of funding and organizing the workshop.

This agreement comes into effect upon its signature by the two parties.
